

Tuebingen Atlas of the Near & Middle East TAVO Map Cabinet

Following the example of Napoléon's famous "*Déscription de l'Égypte*" we have tailor made a cabinet for our twelve volume hard cover edition of the Tübingen Atlas of the Near and Middle East (*Tübinger Atlas des Vorderen Orients* or "TAVO"). Each cabinet is hand made.

This elegant TAVO map cabinet can be used for transportation, storing and reading as it is equipped with doors and reading desk which can be adjusted vertically.

For the first time the TAVO is now available in an adequate furniture for storing. Our cabinet maker has chosen exquisit materials, including precious wood veneers and brass mountings. Style and details can be varied to make the furniture suit with the library's style. Colours and veneer range from beech to mahogany.

Size: ca. 85 x 68 x 100 cm

Price: upon request
